RoHS & WEEE Compliance

Dear Valued Customer:

Based on information as supplied by our raw material vendors and the formulations used in the production of our products, the concentration levels of the chemicals and compounds listed below are either not present or below the typical lowest analytical detection levels, for our molded materials. This applies to our products as supplied in their original form and purpose intended.

Mercury
Lead
Hexavalent Chromium
Cadmium
Polybrominated Biphenyls (PBB)
Polybrominated diphenyls
Poly-brominated Diphenyl Ethers (PBDE)
Polychlorinated Biphenyls (PCBs)
Octabromodiphenyl (OctaDBE)
Ozone depleting chemicals

ALL products manufactured at Röchling Glastic Composites comply with directive 2011/65/EU and are compliant with all WEEE requirements. If you have any questions regarding RGC's RoHS or WEEE compliance, please contact Sean Madden at smadden@glastic.com.

Sincerely,

Sean G. Madden
Röchling Glastic Composites
